## SUMMARY

Versatile and results-driven Software Engineer with strong expertise in full-stack development using C#, Python, Java, and PHP, along with their associated frameworks such as .NET, Django, Spring Boot, and Laravel. Proven ability to design, develop, and maintain scalable software applications, APIs, and web platforms. Experienced in object-oriented programming (OOP), database design, Agile methodologies, and the entire software development lifecycle. Adept at working in collaborative teams to deliver robust, user-focused solutions. Passionate about continuous learning and solving real-world problems with clean, maintainable code.

## SKILLS

C#	Python	Java	PHP	JavaScript	SQL	HTML	CSS	NET Core	.NET Core	ASP.NET MVC
Entity Framework	Django	Spring Boot	Laravel	Bootstrap	jQuery	RESTful API	MVC Architecture			
Responsive Design	SQL Server	MySQL	PostgreSQL	SQLite	ORM Tools	Visual Studio	VS Code			
Git	GitHub	GitLab	Postman	Docker	Figma	Object-Oriented Programming	SOLID Principles			
Test-Driven Development	Agile/Scrum	CI/CD	Jira	Debugging & Problem-Solving						
Software Documentation										

## EXPERIENCE

### Web Developer (Part-Time)

#### Christ's School Richmond

📅 01/2024 - 01/2025 📍 London, United Kingdom

- Maintained and updated an internal PHP/CodeIgniter-based school portal used by over 800 students and staff.
- Resolved 30+ user-reported issues, enhancing platform reliability and reducing IT helpdesk requests by 40%.
- Improved page load speed by 35% through optimization of existing PHP and SQL queries.
- Updated HTML/CSS layouts for 10+ key pages, improving accessibility and mobile responsiveness.
- Provided technical support and training to 15+ staff members, achieving a 100% user satisfaction rate in internal surveys.
- Documented system changes and conducted regular backups to ensure platform stability and data security.

### Software Engineer

#### Aptech

📅 08/2022 - 09/2023 📍 Lagos

- Designed and launched a scalable Spring Boot and React application, supporting 10,000+ monthly users with <1.2s response time.
- Refactored 3 legacy applications into .NET Core microservices, reducing server load by 60% and simplifying deployment.
- Integrated 10+ third-party APIs with Django and Laravel, enabling new core features and improving platform capability by 25%.
- Automated deployments via GitHub Actions, cutting release time by 50% and minimizing downtime.
- Reviewed 150+ pull requests and mentored 2 junior developers, helping improve code quality and knowledge sharing across the team.
- Delivered key features that contributed to a 95% client approval rate during product demos.

### Software Developer Intern

#### Aptech

📅 08/2021 - 08/2022 📍 Lagos

- Developed and deployed 5+ RESTful APIs using ASP.NET Core and Entity Framework, reducing frontend-backend integration time by 30%.
- Contributed to a team project that improved system performance by 25% through code optimization and modularization.
- Participated in 20+ Agile sprint cycles, consistently completing all assigned tasks on time.
- Wrote and maintained over 80 unit and integration tests with xUnit, increasing overall test coverage from 65% to 90%.
- Diagnosed and fixed 50+ bugs during QA cycles, reducing post-deployment issues by 40%.
- Collaborated using Git and Jira, maintaining a 100% task completion rate across project boards.

### Customer Service Representative (Banking Tech Focused)

#### United Bank For Africa (UBA Group)

📅 03/2018 - 07/2020 📍 Lagos

- Assisted customers with troubleshooting login issues, transaction failures, and system errors, ensuring minimal service disruptions.
- Provided step-by-step guidance for resetting passwords, enabling two-factor authentication, and managing account security settings.
- Worked closely with technical support teams to escalate complex software or hardware issues affecting customer transactions.
- Conducted step-by-step walkthroughs for customers on how to navigate mobile banking apps, set up recurring payments, and utilize budgeting tools.

# EDUCATION

## Master of Science in Computer Software Engineering

University of Westminster

📅 09/2023 - 09/2024    📍 London, United Kingdom

- **Relevant Course-Works:** Data Structure & Algorithm | Web Application Development (C# .NET) | Mobile Application Development (Swift) | Databases | Advanced Software Design | Linux | Object-Oriented Programming (C#).

GPA

3.7 / 4.0

## Diploma in Full-Stack Web Development | Distinction

Full Stack Web Development

📅 08/2020 - 08/2021

- **Relevant Course-Works:** Data Structure & Algorithm | Frontend Development (React) | Backend Development (Django) | Databases | Advanced Software Design | Object-Oriented Programming (Python).

## Bachelor of Science in Political Science

University of Ibadan

📅 03/2016 - 03/2020

GPA

3.9 / 4.0
