SUMMARY

Full-Stack Developer with 3+ years of professional experience in C#, .NET, React, PHP, Java, and Python. Skilled in building scalable, user-friendly applications across multiple platforms and frameworks. Proven ability to deliver high-quality solutions, optimise system performance, and collaborate with cross-functional teams. Passionate about leveraging diverse technologies to solve real-world problems and drive innovation.

EXPERIENCE

Junior Software Developer

Aptech

📅 05/2022 - 09/2023

- Developed and maintained scalable applications using C#, ASP.NET Core, and React, improving system performance by 20%.
- Built RESTful APIs for seamless integration with third-party services, reducing development time by 15%.
- Collaborated with cross-functional teams to deliver 5+ projects on time and within budget.
- Conducted unit testing and debugging, reducing software defects by 15%.
- Documented application processes and research findings, improving team knowledge sharing by 30%.

Software Developer Intern

Aptech

📅 04/2021 - 04/2022

- Designed and implemented web applications using PHP and Java, enhancing user engagement by 25%.
- Optimised database performance using MySQL and PostgreSQL, reducing query execution time by 20%.
- Developed Python scripts for data analysis and automation, saving 10 hours per week in manual tasks.
- Participated in the full software development lifecycle, delivering 3+ projects ahead of schedule.

Customer Service Representative

United Bank for Africa (UBA) PLC

📅 03/2019 - 03/2021

- Resolved customer inquiries and complaints promptly, achieving a 95% satisfaction rate.
- Identified and addressed customer issues, reducing escalations by 30%.
- Collaborated with colleagues to achieve branch targets, improving service delivery by 20%.

EDUCATION

Master of Science in Software Engineering

University of Westminster

📅 09/2023 - 09/2024   📍 London, United Kingdom

GPA
3.7 / 4.0

Bachelor of Science in Political Science

University of Ibadan

📅 03/2017 - 03/2021

GPA
3.9 / 4.0

CERTIFICATION

C#,Python,Java,PHP Certification

Codecademy

SKILLS

HTML	CSS	JavaScript	React

C#	ASP.NET Core	.NET	Python

Django	PHP	Java	Linux

React	SQL Server	Git	NoSQL

User Experience (UX) Design   **Swift**

Problem-Solving   **Collaboration**

RESTful APIs   **Relational Databases**

Object-Oriented Programming

PROJECTS

Gym Management System

📅 2025   📍 United Kingdom

🔗 https://github.com/Dimeji12/Gym-Management-System-

Key Technologies: C#, OOP, SOLID Principles, File Handling, Design Patterns

- Developed a Gym Management System using C# in a console-based environment, applying Object-Oriented Programming (OOP) and SOLID principles.
- Designed a modular architecture with encapsulation, inheritance, abstraction, and polymorphism to ensure maintainability and scalability.

Foody Convent Garden Restaurant App

📅 2023   📍 United Kingdom

🔗 https://github.com/Dimeji12/Foody-Covent-Garden-App-React-.Net

Technologies Used: C#, .NET, React, Entity Framework, RESTful APIs.

- Built RESTful APIs for menu management, order processing, and payment integration.
- Improved data retrieval efficiency by 20% using Entity Framework for optimized database queries.

Shopverse Backend Ecommerce App

📅 2024   📍 United Kingdom

🔗 https://github.com/Dimeji12/Shop-verse-Backend--.NET

Technologies Used: C#, .NET, Entity Framework, RESTful APIs, Microsoft Azure, Jira, Bitbucket, Octopus Deploy.

- Improved integration capabilities by building {5} RESTful APIs, resulting in 25% increase in operational efficiency.
- Utilized Entity Framework for efficient data modelling and management.
